CHICAGO DISTRICT

PUBLIC NOTICE/APPLICATION NUMBER: LRC-2015-00050
COMMENT PERIOD BEGINS: March 4, 2015
COMMENT PERIOD EXPIRES: April 4, 2015

JOINT PUBLIC NOTICE
U.S. Army Corps of Engineers
Illinois Environmental Protection Agency

APPLICANT
Greg Opatz
Inland Harbor Marina
38816 N. Broadway Avenue
Antioch, IL 60002

PROPOSED ACTION
Proposal to continue dredge maintenance of Inland Harbor channel adjacent to Fox Lake. Approximately 45’ wide channel x 100’ long to be dredge to 14 feet in depth maximum. Dredge maintenance/sediment removal has been ongoing since channel was originally excavated in 1967. A detailed description of this proposal is provided on page 2 of this notice (See attached drawings).

LOCATION OF PROPOSED ACTION
On Fox Lake (Chain of Lakes) at 38816 N. Broadway Avenue in Antioch, Lake County, Illinois (Section 35, Township 46 N, Range 9 E.)

Interested parties are hereby notified that an application has been received for a Department of the Army permit for the activity described herein and as shown on the attached drawings. You are invited to provide your comments by April 3rd on the proposed work, which will become part of the record and will be considered in the decision. A permit will be issued or denied under Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403).
Written comments shall be mailed to:

U.S. Army Corps of Engineers  
Chicago District, Regulatory Branch 
Attn: LRC-2015-00050, Melyssa R. Navis  
231 South LaSalle Street, Suite 1500  
Chicago, Illinois 60604-1437

It should be noted that ALL comments received by this office (via hard copy or electronic) will only be accepted with the full name and address of the individual commenting, and must be received by the close of the public notice period. Electronic comments may be sent to the project manager at melyssa.r.navis@usace.army.mil.

PROJECT DESCRIPTION

The applicant is proposing to continue mechanical maintenance dredging of a portion of a channel adjacent to Fox Lake in unincorporated Antioch, Lake County, Illinois. The total area of disturbance is approximately 100 ft in length by 45 ft. wide, and 14 ft. deep. The purpose and need for regular yearly dredging is to remove sediment accumulation at the mouth of the channel at the marina’s point of ingress and egress (Exhibit 1 & 2) for boats using the marina facility. A letter of permission allowing a 10-year dredge maintenance approval is requested.

The details of the proposed activity includes: mechanical dredging of approximately 4500 sq. ft. (0.10 ac.) of channel (see attached location map Exhibit 3). Mechanical dredging activities using a long-reach excavator (with a 45 ft. boom and dredge bucket) are scheduled for early Spring of each year in low water level conditions during the drawdown of the Chain O’ Lakes. Immediately upon removal, all dredge spoil material is placed in a dump truck and transported to an approved upland location at the corner of Grass Lake Road and Broadway Avenue. Once fully dewater and decomposed, the compost is available to reuse for maintenance of upland areas on-site, including grassy areas and flower gardens. A perimeter silt fence is shown outside the spoil pile on Exhibit 4.

No return water will be proposed as part of this activity. A double row of silt fence will be installed along the shoreline each year as a precaution for water quality protection and for soil erosion and sediment control. There are no high quality resources on or adjoining the subject property based on our review of the Lake County Wetland Inventory Map.

REGULATORY AUTHORITY
This proposed action will be reviewed according to the provisions of Section 10 of the Rivers and Harbors Act of 1899.

JURISDICTION
This application will be reviewed according to the provisions of Section 10 of the Rivers and Harbors Act of 1899.
EVALUATION FACTORS
The decision whether to issue a permit will be based on an evaluation of probable impact including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments.

All factors which may be relevant to the proposal will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, considerations of property ownership and, in general, the needs and welfare of the people. In addition, if the proposed activity involves the discharge of dredged or fill material into waters of the United States, the evaluation of the impact on the public interest will include application of Section 404(b)(1) guidelines (40 CFR 230) promulgated by the U.S. Environmental Protection Agency.

The Corps of Engineers is also soliciting comments from the public, Federal, state and local agencies, Indian tribes, and other interested parties in order to consider and evaluate the potential impacts of the proposed activity. Once this office completes a review of the comments received, it will be determined whether to issue, modify, condition, or deny a permit for this proposal.

To prepare this decision, comments are taken into consideration to assess impacts on the public interest factors listed above, as well as endangered species, historic properties, water quality, and general environmental effects. Comments will be used in the preparation of an Environmental Assessment and/or Environmental Impact Statement pursuant to the National Environmental Policy Act. A determination concerning the need for a public hearing will also be based on the comments received.

PRELIMINARY EVALUATION OF SELECTED FACTORS

WATER QUALITY:
The applicant has applied to the Illinois Environmental Protection Agency (IEPA) for water quality certification, or waiver thereof, for the proposed activity in accordance with Section 401 of the Clean Water Act. Certification or waiver indicates that the IEPA believes the activity will not violate applicable water quality standards. The review by the IEPA is conducted in accordance with the Illinois water quality standards under 35 Illinois Administrative Code Subtitle C by providing an antidegradation assessment, which includes an evaluation of alternatives to any proposed increase in pollutant loading that may result from this activity.

The "Fact Sheet" containing the antidegradation assessment for this proposed project may be found on the IEPA’s web site, at www.epa.state.il.us/public-notices/. In the event that the IEPA is unable to publish the "Fact Sheet" corresponding to the timeframe of this Joint Public Notice, a separate public notice and "Fact Sheet" will be published by the IEPA at the web site identified.
above. You may also obtain a copy of the "Fact Sheet" by contacting the IEPA at the address or telephone number shown below.

Written comments concerning possible impacts to water quality should be addressed to the following agency, along with a copy of the comments provided to the Corps of Engineers:

Illinois Environmental Protection Agency  
Bureau of Water  
Watershed Management Section  
1021 N. Grand Avenue East  
P.O. Box 19276  
Springfield, Illinois 62794-9276

If you have any questions please contact the IEPA at (217) 782-3362.

**DEPARTMENT OF NATURAL RESOURCES:**  
The applicant has applied to the Illinois Department of Natural Resources, Office of Water Resources (IDNR-OWR) for a permit pursuant to the State of Illinois Rivers, Lakes and Streams Act (615 ILCS 5). Comments concerning the IDNR-OWR permit should be addressed to the following agency, along with a copy of the comments provided to the Corps of Engineers:

Illinois Department of Natural Resources  
Office of Water Resources  
2050 West Stearns Road  
Bartlett, Illinois 60103

If you have any questions please contact the IDNR at (847) 608-3100 extension 2025.

**ENDANGERED AND THREATENED SPECIES:**  
The Corps of Engineers has determined that the proposed activity would not affect any federally-listed endangered or threatened species or critical habitat for any endangered or threatened species, pursuant to the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.). Therefore, consultation with the U.S. Fish and Wildlife Service pursuant to Section 7 of the Endangered Species Act does not appear to be warranted at this time.

**HISTORIC PROPERTIES/CULTURAL RESOURCES:**  
Preliminary review indicates that the proposed activity is not likely to adversely affect any historic property which is listed, or eligible for listing, on the National Register of Historic Places.
ENVIRONMENTAL IMPACT STATEMENT
A preliminary determination has been made that an environmental impact statement is not required for the proposed work.

PUBLIC HEARING
Any person may request in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for public hearing shall state with particularity the reasons for holding a public hearing. A request for a hearing may be denied if substantive reasons for holding a hearing are not provided or if there is otherwise no valid interest to be served.

It should be noted that materials submitted as part of the permit application become part of the public record and are thus available to the general public under the procedures of the Freedom of Information Act (FOIA). Individuals may submit a written request to obtain materials under FOIA or make an appointment to view the project file at the Chicago District Corps of Engineers Office of Counsel.

Interested parties wishing to comment on the proposed activity must do so in writing no later than April 4, 2015. It is presumed that all parties receiving this notice will wish to respond to this public notice; therefore, a lack of response will be interpreted as meaning that there is no objection to the project as described.

This public notice is not a paid advertisement and is for public information only. Issuance of this notice does not imply Corps of Engineers endorsement of the project as described.

If you have any questions, please contact Melyssa R. Navis of my staff by telephone at 312-846-5533, or email at melyssa.r.navis@usace.army.mil. It should be noted that ALL comments received by this office (via hard copy or electronic) will only be accepted with the full name and address of the individual commenting. You can also visit our website at http://www.lrc.usace.army.mil/Missions/Regulatory.aspx for more information on our program.

FOR THE DISTRICT COMMANDER:

ORIGINAL SIGNED

Kathleen G. Chernich
Chief, East Section
Regulatory Branch

NOTICE TO POSTMASTERS:

It is requested that this notice be conspicuously and continuously posted until April 4, 2015.
