

**JURISDICTIONAL DETERMINATION DECISION DOCUMENT**  
U.S. Army Corps of Engineers, Chicago District

**APPLICANT:** Gas City, Ltd.

**PROJECT LOCATION/WATERWAY:** Northwest of the Intersection of West 151<sup>st</sup> Street and Bell Road in Unincorporated Will County, Illinois

**FILE NUMBER:** 200400255

**PROJECT REVIEW COMPLETED:**  Office  Field

**Jurisdictional Determination (JD)** (For Sites regulated under 33 CFR 320-330):

- Preliminary JD - A preliminary JD is not appealable (33 CFR 331.5(b)(9))  
Based on available information:
  - There appear to be no waters of the United States on the project site.
  - There appear to be waters of the United States on the project site.
- Approved JD - An approved JD is an appealable action. (33 CFR 331.2)  
Based on available information:
  - There are no waters on the project site.
  - There are non-jurisdictional waters on the project site.
  - There are waters of the United States on the project site.
  - There are both waters of the United States and non-jurisdictional waters on the project site.

**Basis of Jurisdictional Determination:**

- There are no jurisdictional waters of the United States present on the project site.
- The presence of waters which are currently used, or were used in the past, or may be susceptible for use to transport interstate or foreign commerce, including all waters which are subject to the ebb and flow of the tide (i.e., navigable waters of the U.S.) (33 CFR 328.3(a)(1))
- The presence of interstate waters (including interstate wetlands<sup>1</sup>). (33 CFR 328.3 (a)(2))
- The presence of a tributary to an interstate water or other water of the US. (33 CFR 328.3 (a)(5))
- The presence of wetlands adjacent<sup>2</sup> ( bordering, contiguous, or neighboring) to interstate or other waters of the US, except for those wetlands adjacent to other wetlands. (33 CFR 328.3 (a)(7))
- The presence of an isolated water (e.g., intrastate lakes, rivers, streams (including intermittent streams), mudflats, sandflats, wetlands, sloughs, prairie potholes, wet meadows, playa lakes, or natural ponds).
  - The site is used by interstate or foreign travelers for recreational purposes.(33 CFR 328.3 (a)(3)(i))
  - The site has fish or shellfish that are taken and sold in interstate or foreign commerce. (33 CFR 328.3 (a)(3)(ii))
  - The site is used for industrial purposes by industries in interstate commerce. (33 CFR 328.2 (a)(3)(iii))
  - Other:
- Section 10 waterway.

- Site Visit Conducted on:
- Other information:

**Rationale for Basis (applies to any boxes checked above):** There are no jurisdictional areas located on the subject property.

**Lateral Extent of Jurisdiction (33 CFR 328 and 329):**

- Ordinary High Water Mark indicated by:
- clear, natural line impressed on the bank
  - the presence of litter and debris
  - changes in the character
  - Wetland Boundary
  - destruction of terrestrial vegetation
  - shelving
  - other:

**Confirmation of Wetland Boundaries**

- This office concurs with your wetland delineation report dated \_\_\_\_\_, prepared by \_\_\_\_\_.
- This office does not confirm your wetland boundary

**Recommended by:** \_\_\_\_\_

**Date:** 30 Jan 04

**Approved by:** \_\_\_\_\_

**Date:** 30 Jan 04

<sup>1</sup>Wetlands are identified and delineated using the methods and criteria established in the Corps Wetland Delineation Manual (87 Manual) (i.e., occurrence of hydrophytic vegetation, hydric soils and wetland hydrology). Processes for determining wetlands on agricultural lands may vary from methods described in the Corps Wetland Delineation Manual (1987).

<sup>2</sup> Wetlands separated from other waters of the U.S. by man-made dikes or barriers, natural river berms, beach dunes, and the like are also adjacent.

[ ] There are both waters of the United States and non-jurisdictional waters on the project site.

Basis of Jurisdictional Determination:

- [X] There are no jurisdictional waters of the United States present on the project site.
[ ] The presence of waters which are currently used, or were used in the past, or may be susceptible for use to transport interstate or foreign commerce, including all waters which are subject to the ebb and flow of the tide (i.e., navigable waters of the U.S.) (33 CFR 328.3(a)(1))
[ ] The presence of interstate waters (including interstate wetlands1). (33 CFR 328.3 (a)(2))
[ ] The presence of a tributary to an interstate water or other water of the US. (33 CFR 328.3 (a)(5))
[ ] The presence of wetlands adjacent2 ( bordering, contiguous, or neighboring) to interstate or other waters of the US, except for those wetlands adjacent to other wetlands. (33 CFR 328.3 (a)(7))
sandflats, wetlands, sloughs, prairie potholes, wet meadows, playa lakes, or natural ponds.
[ ] The site is used by interstate or foreign travelers for recreational purposes.(33 CFR 328.3 (a)(3)(i))
[ ] The site has fish or shellfish that are taken and sold in interstate or foreign commerce. (33 CFR 328.3 (a)(3)(ii))
[ ] The site is used for industrial purposes by industries in interstate commerce. (33 CFR 328.2 (a)(3)(iii))
[X] Other: There is one isolated wetland on the subject property.
[ ] Section 10 waterway.

[X] Other information: Wetland Delineation Report, prepared by ENCAP, Inc., dated September 24, 2003 (revised

December 17, 2003)

Rationale for Basis (applies to any boxes checked above): The on-site wetland (designated as Wetland 1 in the ENCAP report) is isolated and not under the jurisdiction of the U.S. Army Corps of Engineers. Please note that an unnamed tributary is located just off-site near the southern property boundary. This unnamed tributary is under the jurisdiction of the U.S. Army Corps of Engineers.

Lateral Extent of Jurisdiction (33 CFR 328 and 329):

- [ ] Ordinary High Water Mark.
[ ] Wetland Boundary

Confirmation of Wetland Boundaries

- [ ] This office concurs with your wetland delineation report dated , prepared by
[ ] This office does not confirm your wetland boundary

Recommended by: [Signature] Date: 1/23/04

Approved by: [Signature] Date: 1/26/04

1Wetlands are identified and delineated using the methods and criteria established in the Corps Wetland Delineation Manual (87 Manual) (i.e., occurrence of hydrophytic vegetation, hydric soils and wetland hydrology). Processes for determining wetlands on agricultural lands may vary from methods described in the Corps Wetland Delineation Manual (1987).

2 Wetlands separated from other waters of the U.S. by man-made dikes or barriers, natural river berms, beach dunes, and the like are also adjacent.
