

Mitigation Banks

Watershed Service Areas

- Des Plaines River
- Fox River
- Kankakee River
- Kishwaukee River
- Lake Michigan & Chicago River
- Major Rivers & Waterbodies
- Mitigation Banks

It should be noted that each watershed depicted represents the Federal bank service areas within the regulatory boundaries of the Chicago District. There are some counties that require compensatory mitigation be completed within their jurisdictional borders. We recommend that you check your local regulations regarding mitigation requirements as part of your planning efforts.
