This map was produced under the Advanced Identification (ADID) Program of the U.S. Enviromental Protection Agency and the U.S. Army Corps of Engineers. Descriptions of the wetland inventory methodology and the wetland and stream designations are available in the "Advanced Identification (ADID) Study: McHenry County, Illinois Final Report, December 1998."

The wetland boundaries are not jurisdictional delineations.

Note: Although the aerial photography displayed in this map was taken in the spring of 2005, the ADID data was based on a variety of data that was collected primarily between 1995 and 1997. Therefore, some features present on the 2005 aerial photography may not be reflected in the ADID data

Date of Map Creation 13, January, 2007
