**SECTION II: SUMMARY OF FINDINGS**

**A. RHA SECTION 10 DETERMINATION OF JURISDICTION.**

There **Are no** "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area. [Required]

- Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional. Explain: **The property contains a shallow pond, approximately 2 acres in size, which does not outlet into any downstream waters of the U.S. A site visit was conducted and the project manager walked the entire perimeter of the pond. Not inlet or outlet pipes, or conveyance were found. The site is a depressional area surrounded entirely by upland. The nearest channel that can be seen on aerial photography is approximately 1,800 feet to the west; the closest mapped stream is 0.6 miles to the west.**

**B. ADDITIONAL COMMENTS TO SUPPORT JD:** A site visit on March 16, 2018 showed that there was no surface hydrologic connection to the river adjacent to the project area. Additionally, a walk along the river showed no outfalls from drainage pipes leading from the site. The wetlands seem to be incidental from surrounding areas being filled. The distance between the isolated wetlands and the river is far enough to not constitute abutting or close geomorphic positioning.
