**A. REPORT COMPLETION DATE FOR APPROVED JURISDICTIONAL DETERMINATION (JD): 13-Dec--2016**

**B. DISTRICT OFFICE, FILE NAME, AND NUMBER:** Chicago District, Crete Road Phase I, LRC-2016-665

**C. PROJECT LOCATION AND BACKGROUND INFORMATION:** This project is located along Crete Road between Richton Road and W. Exchange St. in the Village of Crete, Will County, Illinois. There are 9 delineated wetland and waters onsite. Of these, 4 were considered to be non-jurisdictional because of their lack of connection to WOUS and their function as a roadside traditionally excavated in upland soils. The other 5 areas were determined to have connection to WOUS (see other JD sheet in conjunction with this isolated sheet)

- Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional.  
Explain: **4 areas are determined to be non-jurisdictional. Wetland 2, Wetland 3 and Wetland 5 are roadside ditches that were traditionally excavated in upland soils and while hydric soils have formed in the ditches since their construction the ditches also do not connect to other WOUS located in the project area via surface connection or through stormsewer pipe with the exception of large rainstorm events. Wetland 8 is located outside of the roadside ditch areas and was determined not to have to surface connection to any other WOUS located on the project site.**
