

INDIANA REGIONAL GENERAL CONDITIONS FOR THE STATE OF INDIANA

These regional conditions are in addition to but do not supersede the requirements in the Federal Register (Volume 85 No. 179 of September 15, 2020). Information on Pre-Construction Notification (PCN) can be found at NWP General Condition No. 32 (Federal Register, Volume 85 No. 179 of September 15, 2020, pp 57390).

REGIONAL CONDITIONS:

1. Nationwide Permit Nos. 12 (Oil or Natural Gas Pipeline Activities), C (Electric Utility Line and Telecommunications Activities), and D (Utility Line Activities for Water and Other Substances)
 - (a) For utility lines placed across the channel of an authorized Federal navigation project, the following conditions apply: 1) the line must be embedded at least 6 feet below the authorized Federal channel depth; 2) existing and proposed elevation information on precise plan and section scale drawings are required; 3) within 60 days after construction, an as-built survey must be provided indicating the points of entry and exit of the installation.

2. Nationwide Permit No. 33-Temporary Construction, Access, and Dewatering
 - (a) Notification in accordance with Nationwide General Condition 32 for impacts to waters of the United States exceeding 0.1 acre is required to the Corps for all activities which are subject to jurisdiction under Section 404 of the Clean Water Act.

Regional Condition Applicable to all NWPs within Indiana:

1. Notification in accordance with Condition 32 is required to the Corps for all activities which would cause, alter, or affect diversion of water from the Great Lakes basin.
